

KERSCHNER'S™

GAS SERVICE, INC.

Spring 2020

From the coldest nights to the hottest days, we are there for you. If you need emergency service or general maintenance on your heating, air conditioning, plumbing, septic, or propane delivery, Kerschner's service technicians are ready to help.

**Know what's below.
Call before you dig.**

Call Before You Dig! It's important that anyone who is excavating must know where all buried utility lines are located. Follow these steps:

1. Call Kerschner's Gas Service, Inc. so we may locate your propane gas lines.
2. Contact Diggers Hotline to locate all other buried utility lines. IT'S THE LAW.
3. Wait the State's required time (at least 3 working days) before you begin to dig.
4. After underground lines have been located, respect the paint markings or flags and dig with care around them.

Be prepared in all temps -
know how to turn off your
gas & water lines.

PROPANE EXCEPTIONAL ENERGY®

Did You Know?...

Homeowners across the country trust propane for more than just heating. They are using it for grilling, cooking, water heating, clothes drying, fireplaces and more.

Propane naturally burns cleaner and performs more efficiently than other home energy sources. You get peak performance while spending less money.

**Kerschner's
No Fee Tank Installation**
Some restrictions may apply.

1-800-729-2570

Shutting off gas supply on tanks

Locate shut-off valve. (Large storage tanks will have the valve under the cover.) Turn shut-off valve to the right (clockwise) to stop the flow of propane.

GRILL SAFELY

- Know where the shut-off valve is
- Check all connections
- Don't leave an open flame unattended

grilled salmon!**

PROPANE:

We pride ourselves
in giving you great personal service

- Residential
- Commercial
- Agricultural
- Industrial
- Temporary Construction Heat
- Back Up Generators

**We Offer Auto Delivery,
Auto Payment and Easy Pay Program**

Wisconsin State Statute 101.16(4) states:

(b) 1. A person who owns, leases, or uses a propane gas system and who is a customer of a retail supplier shall notify the retail supplier of the propane gas for the propane gas system of any interruption in the operation of the propane gas system due to the replacement, modification, repair, or servicing of the propane gas system by any other than the retail supplier. The customer shall provide the notice at least 7 days in advance of the interruption in the operation of the propane gas system, except as provided in subd. 2. The retail supplier or the person replacing, modifying, repairing, or servicing the propane gas system, shall perform a check for leaks or other defects in the propane gas system before placing the propane gas system back into operation in the manner required by rule.

2. If the interruption of the propane gas system subject to subd. 1. is due to emergency repair or servicing, the customer shall provide the notice to the retail supplier as soon as possible and no later than 24 hours after the repair or servicing is completed.

More than just your
local propane company...

PROPANE • HEATING • AIR CONDITIONING • PLUMBING • SEPTIC SERVICES

or ask a Kerschner's
associate for yours.*

PLUMBING:

From start to finish, Kerschner's is the first choice for high quality, professional craftsmanship.

- New Construction
- Remodeling
- Repairs
- Well Inspection & Installation

SEPTIC SERVICES:

Kerschner's can handle all your septic needs promptly and professionally.

- Inspections
- Complete System Design & Installation (New & Replacement)
- Repairs
- Tank Pumping

Don't forget having your septic system pumped by Kerschner's every two or three years and cleaning the filter regularly can help improve the longevity and keep your system working properly. If you have high water usage you may wish to have your inspections be more frequent.

WARNING

Never allow anyone to enter a septic tank. Toxic gases are produced by the natural treatment processes in septic tanks and can kill in minutes.
